About SPMCC

Singapore PMC Certification Pte Ltd (SPMCC) is a fully owned subsidiary of the Singapore Manufacturing Federation (SMF).

Inaugurated on 1 June 2016, the establishment of SPMCC is the result of a collaborative partnership between SMF and the Singapore Business Advisors and Consultants Council (SBACC). With the collaboration, SBACC licenses all its rights to manage and administer its Practising Management Consultant (PMC) Certification Scheme to SPMCC.

SPMCC upholds the high standards of PMC certification as the quality of management consultants remains an important selection criterion for new business initiatives and projects. Providing greater value-add to PMCs who are certified under SBACC's PMC Certification Scheme, SPMCC facilitates the matching of our certified PMCs with business demands from the wide network of SMF, empowering them to connect more closely to the large membership base of SMF. Our certified PMCs continue to enjoy both local and international professional recognition.

The objective of SPMCC is to promote and advance the professionalism of business consulting by upholding internationally recognised and valued standards of performance and conduct for our certified PMCs. Regular maintenance and reviews of standards are conducted to remain current and competitive.

SPMCC is committed to developing a talent pool of professional consultants who are vital to the development of enterprises in Singapore. Through high quality consultancy, these PMCs propel enterprises to achieve their business objectives. Our certified PMCs help enterprises to be productive and competitive by introducing new technologies, improving systems and processes, restructuring enterprises and extending the range of abilities and knowledge.

At SPMCC, we believe that businesses benefit tremendously when PMCs add value to businesses by addressing critical gaps in management know-how and offering useful business contacts.

Practising Management Consultant (PMC) Certification Scheme

Launched in 2008, the PMC Certification Scheme is a structured certification scheme that ensures a consistent quality of certified management consultants in Singapore. It is designed to raise the professionalism of the management consulting industry, and to promote the PMC designation as a mark of quality assurance.

Each management consultant is rigorously assessed by the PMC Certification Board before he or she is certified as a Practising Management Consultant. The PMC designation is therefore a formal endorsement of the individual's professionalism and integrity, and is a testament to his or her competency and reliability.

The PMC Certification Scheme therefore:

- helps SMEs and other stakeholders to identify Practising Management Consultants who are qualified, competent and credible
- builds a critical mass of competent management consultants to serve SMEs
- facilitates high growth of SMEs and enhances their competitiveness in the industry

To further assist SMEs in identifying and engaging certified management consultants with appropriate expertise, the PMC Certification Scheme is expanded beyond certifying competencies in generic consulting skills to include knowledge and skills in specific domain areas.

The PMC Certification Scheme is a SPRING-recognised Certification for Management Consultants.

Benefits to Enterprises

Given the stringent structure of the PMC Certification Scheme, companies are assured of:

• Improved Accountability

The certification is tied to the individual consultant who is to comply to the professional standards of conduct and Code of Ethics drawn up by the Practising Management Consultant - Certification Board (PMC-CB). This tightens the accountability from the PMC.

• Adherence to International Standards

SPMCC is a valued licensee of SBACC which is the first organisation in Singapore to be certified as ISO/IEC 17024. SPMCC will keep to our commitment to adhere to international standards and best practices in the certification of individuals.

• Official Endorsement

Government agencies such as SPRING Singapore, Workforce Singapore (WSG), IE Singapore, Intellectual Property Office of Singapore (IPOS), Ministry of Manpower and others endorse the PMC Certification Scheme for its stringent process in certifying management consultants.

• Independent Administration

The Practising Management Consultant-Certification Board (PMC-CB) functions independently from all other organisations and government agencies, and makes the final decision in every application for certification.
