

SINGAPORE INNOVATION & PRODUCTIVITY INSTITUTE (SiPi)

Productivity brought us to Today, Innovation takes us into the Future

The Singapore Innovation and Productivity Institute (SiPi) is the national agency under Singapore Manufacturing Federation (SMF) that drives innovation and productivity in the manufacturing community in Singapore.

SiPi's vision is to be the leading driver of innovation thinking and best practices for manufacturing companies in Singapore. Its mission is to empower these manufacturing companies with the mindset and tools to achieve the highest level of innovation and productivity possible.

With a strong team of Business Model Innovation and Lean Six Sigma black belt experts, SiPi aspires to steer industry development and collaborate closely with industries and local and overseas experts to develop tools, case studies and methodologies to help manufacturing companies embark on or enhance their innovation and productivity journey. SiPi also aims to generate new knowledge through research and to value-add to manufacturing companies'

services through self-assessment benchmarking exercises.

SiPi has developed and launched Corporate Transformation Roadmap, CTR™, a trusted & proven solution to tackle the woes of SMEs and has been accepted by business leaders and academics.

CTR™ relies on its proven 4 strategies to identify the market niche, to redesign the business model, to navigates the transformation process and then to execute the transformation plan swiftly, productively and innovatively. As a result, businesses can continue to stay relevant and be ready to compete in emerging marketplace.

Many of our SMEs have harnessed the benefits of Lean manpower, Profitability, improved CAGR and are Future-ready through CTR™ and the Business Model Innovation Program.

Clients' Testimonials on Business Model Innovation Program

"I have learned how a traditional business like mine can move forward and scale to greater heights."
