

SINGAPORE INNOVATION & PRODUCTIVITY INSTITUTE

Productivity brought us to Today, Innovation takes us into the Future

The Singapore Innovation and Productivity Institute (SiPi) is one of the three productivity centres appointed by SPRING Singapore (current Enterprise Singapore) in 2012 to drive innovation and productivity in the manufacturing community in Singapore.

The SiPi's vision is to be the leading driver of innovative thinking and best practices for manufacturing companies in Singapore. Its mission is to empower manufacturing companies with the mindset and tools to achieve the highest level of innovation and productivity possible.

With a strong team of Lean Six Sigma black belt experts and Business Model Innovation experts, the SiPi aspires to steer industry development and collaborate closely with industries as well as both local and overseas experts

to develop tools, case studies and methodologies to help companies embark on or enhance their innovation and productivity journey. The SiPi also aims to generate new knowledge through research and to add value to companies' services through self-assessment benchmarking exercises.

The SiPi has developed and launched the Corporate Transformation Roadmap (CTR™), which has been used for consultancy and mentoring of many SMEs and PMEs.

In addition, the SiPi has helped hundreds of companies and professionals in Business Model Innovation methodology through mentoring and coaching projects such as Professional Conversion Programmes (Overseas).

To find out more about how the SiPi can take your business to the next level of productivity through innovation, please contact the SiPi for more information.

Singapore Innovation and Productivity Institute
2985 Jalan Bukit Merah, Singapore 159457

Hear what the companies that benefitted from the Institute's services and programmes have to say:

"This BMI Program is customised to suit local SMEs. Plenty of relevant sharing and cross-fertilisation took place during the Program. Personally, I have benefitted and learned a lot from the trainer as well as the other participants in the Program."

Mr Willy Lim
PCI Consultants

"This BMI Program helps me to validate and align my company's business model to be in-line with the industry trend. It also helps to explore new areas to prepare the company for new heights."

Mr Bernard Tay
Hydratech Industries

"We have learned that productivity has to be innovation-driven"

Chef Pung Lu Tin
Tim Palace Pte Ltd

"This course is good for those who are running business and need something to fall back on to measure the various components in the company in order to help them to improve their businesses.."

Ms Looi Sheau Chian
BG Streets Holdings Pte Ltd
