

# TGIF@SMF

TGIF@SMF is one of the Singapore Manufacturing Federation's (SMF) regular networking and sharing event, with the aim of building a pro-business community amongst the SMF members and to share information on latest services and products available for businesses to adopt. Launched in April 2018, and held every last Friday of the month, the event regularly attracts more than 100 company representatives from different industries each month.

Although the TGIF@SMF is designed to be a casual and relaxed event with good food and drinks, it has also proven to be an effective platform for information sharing to the SMF members. Every month, different government agencies such as Workforce Singapore (WSG), Ministry of Defence (Mindef), and Singapore Economic Development Board (EDB) and various corporations are invited to present their initiatives or introduce their services which are beneficial to the members. The SMF's affiliated business units also take the opportunity to share the latest information on grants and schemes that are beneficial to the growth of members' companies. At the end of the sharing, many friendships and collaboration amongst members, the SMF staff and government agencies representatives are forged over a casual BBQ buffet and drinks.

The SMF is happy to announce in 2019, TGIF @ SMF will be held in partnership with RHB. Each TGIF @ SMF event will feature a key theme and in addition, spotlight on interesting initiatives by SMEs and startups.
